

EFFECTIVE

March 1, 2020.

Subject(s)**JJM 200, Case Management & Policy**

JJ2 200, Case Management & Policy, is obsolete. Historical policy is available under the prior versions by changing the effective date for State of Michigan (SOM) employees and through the Michigan History Center Archives for the general public. Case Management & Policy can be found throughout the juvenile justice manual.

JJM 230, Juvenile Justice Case Service Plans

Removed initial 72 hour contact between youth and juvenile justice specialist; see JJ2 270, Juvenile Justice Specialist Contact Requirements for caseworker contact requirements.

JJM 270, Juvenile Justice Specialist Contact Requirements.

A juvenile justice specialist (JJS) is expected to make the following contacts when managing a juvenile justice case:

- Upon acceptance of a case, face to face contact with the youth must be made within five business days by the JJS, regardless of placement.
- Monthly contact standards when the youth resides in a community based placement correspond with the calculated risk level of the most recent Michigan Juvenile Justice Assessment System (MJJAS) tool.
- Requirements for parents not participating in services, such as absent parent protocol.
- Sibling visit requirements.

Reason: Program office recommendation, policy consolidation.
